CareerExpo at a Glance

WHAT:
Middle School and High School students interested in learning more about Careers in Construction. This is a perfect opportunity for your company, trade association or trade union to connect and brand with the next generation of construction workers and leaders. Join hundreds of the best and brightest young people as they gather to explore careers in construction and to compete in SkillsUSA Georgia's construction-related competitions.

WHY:
The skilled labor shortage. Everyone is asking about it. This is your opportunity to do something about it! According to indeed.com, there are more than 12,000 open construction positions throughout the state. At the same time, students need to know these opportunities exist and that they don't all require a four-year degree. CareerEXPO showcases these options in a unique, interactive and hands-on way. Join other industry leaders as we come together to inspire the next generation.
