Georgia World Congress Center (GWCC) – Hall A

Connecting the Construction Industry with Tomorrow's Workforce

Construction Ready's CareerEXPO links students directly to construction professionals and features hands-on displays that allow students to engage with industry leaders, equipment and materials and tap into their unique skills and interests. The event also features the SkillsUSA State Championships, a competition in which students showcase their skills in a number of construction-related disciplines.

Each year, thousands of students explore at CareerEXPO and visit a growing list of industry worlds, alongside observing more than 400 competitors in the SkillsUSA contests. The worlds represent industry disciplines including safety, highway construction, electrical contracting, energy, drywall, tile, roofing and more. Students have the opportunity to network with company and industry representatives, learn more about careers and have fun with interactive displays.
